| ABSTRACT | p. 5 |
| INTRODUCTION | 7 |
| CHAPTER 1. MASS LOSS AND MASS ACCRETION | 9 |
| 1.1. Close binary systems | 9 |
| 1.2. The Roche model | 11 |
| 1.3. Mass loss via gravitational instability | 15 |
| 1.4. Mass loss via stellar wind | 17 |
| 1.5. Accretion disks | 18 |
| 1.6. Other accretion shapes | 24 |
| References of Chapter 1 | 27 |
| CHAPTER 2. CATACLYSMIC VARIABLES AND DISK INSTABILITY | 28 |
| 2.1. Disk instability | 28 |
| 2.2. White dwarfs | 31 |
| 2.3. Cataclysmic variables | 34 |
| 2.3.1. Novae | 34 |
| 2.3.2. Dwarf novae | 38 |
| 2.4. SU UMa-type DNe and superhumps | 44 |
| References of Chapter 2 | 48 |
| CAPITOLO 3. X-RAY BINARIES AD SOFT X-RAY TRANSIENTS | 49 |
| 3.1. Neutron stars | 49 |
| 3.2. Black holes | 52 |
| 3.3. X-ray binaries | 56 |
| 3.4. Soft X-ray Transients | 61 |
| 3.4.1. The outburst phase | 62 |
| 3.4.2. The quiescence phase | 69 |
| 3.4.3. The compact object: BH or NS? | 72 |
| References of Chapter 3 | 76 |
| CHAPTER 4. X-RAY NOVA OPHIUCHI 1993 (=GRS 1716-249, V2293 Oph) | 78 |
| 4.1. Introduction | 78 |
| 4.2. Observations and data analysis | 80 |
| 4.3. Results and discussion | 90 |
| 4.3.1. The mass of the compact object | 90 |
| 4.3.2. The superhump light curve | 93 |
| 4.3.3. The color of the system and the short-term modulations | 95 |
| References of Chapter 4 | 97 |

| | |
|--|--------------|
| CHAPTER 5. X-RAY NOVA VELORUM 1993 (=GRS 1009-45, MM Vel) | p. 99 |
| 5.1. Introduction | 99 |
| 5.2. The observations | 103 |
| 5.2.1. Photometry | 103 |
| 5.2.2. Spectroscopy | 105 |
| 5.3. Data analysis | 106 |
| 5.3.1. The light curve and the search for light modulations | 106 |
| 5.3.2. The spectra | 110 |
| 5.4. Discussion | 111 |
| 5.4.1. The superhump phenomenon and the optical light curve | |
| 111 | |
| 5.4.2. The X-ray light curve | 114 |
| 5.4.3. The mass of the compact object | 115 |
| 5.5. Conclusions | 116 |
| References of Chapter 5 | 118 |
| CHAPTER 6. X-RAY NOVA SCORPII 1994 (=GRO J1655-40) | 120 |
| 6.1. The object | 120 |
| 6.2. The observations | 123 |
| 6.3. Data reduction and analysis | 124 |
| 6.4. Discussion | 132 |
| 6.4.1. Spectral evolution of the outburst | 133 |
| 6.4.2. Short term flux modulations | 135 |
| 6.4.3. The model | 135 |
| References of Chapter 6 | 139 |
| CHAPTER 7. X-RAY NOVA MUSCAE 1991 (=GS 1124-68, GU Mus) | 140 |
| 7.1. The story so far | 140 |
| 7.2. Observations and data reduction | 142 |
| 7.3. Data analysis | 144 |
| 7.3.1. Photometry | 144 |
| 7.3.2. Spectroscopy | 147 |
| 7.4. Discussion | 152 |
| 7.4.1. The light curves | 152 |
| 7.4.2. The spectra and the disk stability | 153 |
| References of Chapter 7 | 157 |
| CHAPTER 8. STATISTICAL ANALYSIS OF SOFT X-RAY TRANSIENTS | 159 |
| 8.1. 28 transients | 159 |
| 8.2. Statistical properties of SXTs | 176 |
| 8.3. X-ray properties of SXTs | 181 |
| 8.4. Optical properties of SXTs | 186 |
| 8.5. Conclusions | 193 |
| References of Chapter 8 | 196 |

| | |
|---|------------|
| APPENDIX A. ELLCHI: A PROGRAM FOR THE SIMULATION OF SUPERHUMP LIGHT CURVES | 203 |
| A.1. Introduction | 203 |
| A.2. The algorithm | 204 |
| A.3. The program | 206 |
| A.4. The results | 207 |
| References of Appendix A | 209 |
| Alphabetical list of the variables used in the program | 210 |
| The program ELLCHI | 213 |
| APPENDIX B. X-RAY EMISSION MECHANISMS | 218 |
| B.1. Thermal processes | 218 |
| B.2. Non-thermal processes | 223 |
| B.3. Discrete X-ray emission | 226 |
| References of Appendix B | 227 |
| APPENDIX C. TIME SERIES ANALYSIS METHODS | 228 |
| C.1. Fourier-type methods | 228 |
| C.1.1. The Discrete Fourier Transform (DFT) | 228 |
| C.1.2. The <i>CLEAN</i> algorithm | 230 |
| C.2. Least-squares fitting methods | 232 |
| C.2.1. Barning's method | 232 |
| C.2.2. Dworetsky's method | 233 |
| C.2.3. PDM method | 233 |
| C.2.4. Renson's method | 233 |
| C.2.5. Schöneich-Lange's method | 234 |
| C.2.6. Sterken's method | 234 |
| References of Appendix C | 234 |
| APPENDIX D. FINDING CHARTS OF SXTS | 235 |
| References of Appendix D | 235 |
| APPENDIX E. COSTANTS AND UNITS USED IN THIS THESIS | 250 |
| APPENDIX F. PAPERS WRITTEN DURING THE Ph.D. COURSE | 251 |
| INDEX | 253 |
